

# WIRED

## PROGRAM PILOT

The Women in Resources: Empowering Development (WIRED) Program is led by the QRC with funding from the Queensland Government to support the career progression of women in operator and technician roles.

Through leadership development, coaching and peer learning, WIRED provides practical tools, guidance and connections to help participants navigate their careers and reach their goals.

### Who should apply

Women in operator and technician roles who are looking to grow their confidence, broaden their professional networks and take the next step in their careers.

### What you'll gain

- Confidence in your skills and potential
- Practical strategies to navigate workplace dynamics and career opportunities
- Stronger communication and self-advocacy skills
- Greater visibility, influence and professional networks
- Readiness for future leadership opportunities

### What's included

- Launch workshop
- Interactive learning modules
- Facilitated peer learning circles
- Supervisor and line leader engagement
- 1:1 coaching sessions
- Final integration workshop

## Core learning modules

1

### Emerging Leadership

15 or 17 Sept: Virtual

Self-awareness, strengths and leadership behaviours

2

### Building Confidence

13 or 15 Oct: Virtual
